 README.md

DLNA nginx module

DLNA (Digital Living Network Alliance) makes it possible to share video and audio from your computer to other media devices like TV.

Build

Add module when configuring nginx

```
./configure --add-module=/path/to/nginx-dlna-module ...
```

Directives

dlna [NAME]

NAME is DLNA resource name. If omitted location name is used.

```
location /dlna {
    dlna "My Video";
    alias /home/user/Videos;
}
```
